SECUPRO MARTEGO

NO. 122001

Original size

Perfect handling

The advantages of the SECUPRO MARTEGO lay in your hands: the ergonomic double lock grip, the soft grip enabling you to hold on better and a "pre-set" cutting edge, which feels particularly comfortable to your wrist.

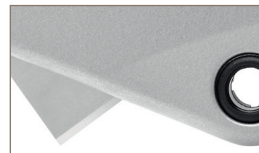

4-cutting edge blade

You can turn and turn over the Solingen quality blade several times, since it has four sharp edges. It's worth it! The cutting depth that is not too large on the other hand it serves to protect your goods.

Just change safely

Once you have got that far, you can change your blade without any additional tools. Here too, the "pull" of the SECUPRO MARTEGO is revealed: The integrated magnet ensures that the blade cannot fall out.

Everything under control

Aluminium takes precedence. This metal not only contributes to the SECUPRO MARTEGO's extraordinary design. It also increases its robustness and equips it for the highest level of stress.

Activators as extra protection

Your SECUPRO MARTEGO accompanies you on your job at every cut and turn! Glad to hear it. But always press the blue activator when you've finished cutting. The blade will not come out unintentionally in this way.

For the highest demands.

A cutting tool in which function and design go hand in hand? That's the SECUPRO MARTEGO, our prize winning double lock cutter with fully automatic blade retraction. Get used to the word "very" in its presence: It is very safe, very robust, very ergonomic, very versatile and machined to very high standards. It is also not only suitable for right-handers and left-handers, but also for very big hands.

--	----------------	--------------------

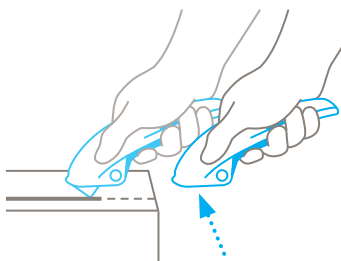

Certificates and Awards

Usage

Safety technology

Fully automatic blade retraction - a high degree of safety

The fully automatic blade retraction of the SECUPRO MARTEGO guarantees a very high degree of safety from cut injuries. Because the blade withdraws back into the handle immediately after leaving the material being cut. Even when you are still pressing down on the lever.

ERGONOMIC DOES THE PERFECT JOB.
