## MARTOR CERAMIC BLADES. TEST NOW!

### **DURABLE AND SHARP**

The new MARTOR ceramic blade impresses with its long service life and long-lasting sharpness. This makes it easier for you to cut a wide variety of materials. Blade changes are rarely necessary.

### **VERSATILE USABLE**

In addition to its sharpness, the ceramic blade has special chemical and physical properties. This means your MARTOR safety knife is well equipped, even in special situations.

### **FLEXIBLE AND SAFE**

You can use the ceramic blade flexibly in existing MARTOR handles – as an alternative to the mounted steel blade. The reliable safety technology of your safety knife protects you when cutting. You will also benefit from its comfort and ergonomics.

THE SAFER WAY TO CUT.

# CERAMIC BLADE NO. 92C

## TECHNICAL FEATURES

**4-cutting edge blade:**  
for a fourfold period of use

**2-sided ground-edge:**  
less cutting resistance

**Non-rusting:**  
ideal also in a damp  
cutting environment

**Non-conductive:**  
no transmission of  
electrical potential

**Non-magnetic:**  
no adhesion of  
magnetic particles

**Chemically inert:**  
no reaction with  
other substances

**Non-oiled:**  
no contamination of  
the material to be cut

## SUITABLE FOR THESE MARTOR SAFETY KNIVES

SECUMAX 320

SECUPRO MARTEGO

SECUPRO MERAK

## APPROVED SAFETY

At MARTOR, using the optional ceramic blades is covered by GS testing. The GS mark certifies that our products meet the requirements of § 21 ProdSG (German Product Safety Act).
